## Washing Dishes

A man went to visit his 90 year old grandfather and while eating the breakfast of eggs and bacon prepared for him, he noticed a film-like substance on his plate. So he says, "Grandfather, are these plates clean?"

His grandfather replies, "Those plates are as clean as cold water can get them, so go on and finish your meal."

That afternoon, while eating the hamburgers his grandfather made for lunch, he noticed many little black specks around the edge of his plate, so again he asked, "Grandfather, are you sure these plates are clean?"

Without looking up from his burger, the grandfather says, "I told you those dishes are as clean as cold water can get them, now don't ask me about it anymore."

Well, later that day, they were on their way out to get dinner. As he was leaving the house, grandfather's dog, who was lying on the floor, started to growl and would not let him pass.

"Grandfather, your dog won't let me out."

Without diverting his attention from the football game he was watching, his grandfather shouted, "Coldwater, get your butt out of the way!"

Resolve to remain cheerful and upbeat. It's been said that you should never share your problems with others because 80 percent of people don't care about your problems anyway, and the other 20 percent are kind of glad that you've got them in the first place !
